RACE/ETHNICITY ANALYSIS

Oregon's Experience

Charles Gallia, Ph.D.
Analysis & Evaluation Manager,
Office of Medical Assistance Programs,
Oregon Department of Human Service.

Challenges

- Not racially & ethnically diverse
 - Small 'Ns'
 - Too small to report
- Creating actionable & compelling results

Solution

- Over-sample
- Comparative Reporting
- Targeted Quality Improvement Intervention

Oregon CAHPS 2004 R/E analysis

Results

- State & Plan Level Race & Ethnicity & Language CAHPS Reports
- Plan's then changed member education materials and mediums,
- improved after-hours care communication
 - reduced frustration with access to specialist for children

Results continued

- Measurable improvement in clinical outcomes
- Identification of Best Practices
- Consensus created
- Disparities reduction a common consideration

Current and future

- Work with CHCS, Inc on the BCAP project: Improving Linguistically Appropriate Primary Care Services for Hispanic Medicaid Managed Care Enrollees with Asthma and Diabetes (results in April!)
- Incorporating disparities reduction measurement into CAHPS & HEDIS and state-value based purchasing expectations
- Increases collaboration with Portland State University, Center for Health & Inequality, Oregon Office of Multicultural Health Work on understanding health literacy, the barriers to improved health outcomes for traditionally underserved populations
